It was worth attending a guest talk by Mr. Lakshmanan Krish organised by CII Yi and CKSVIM on 27th July 2016.

(Aanal Shah, Batch VII, honored Mr. Krish with a Memento)

Mr. Lakshmanan started the session by asking questions like - 'What passion is according to you?'; ditto for HAPPINESS and CAREER PLANNING.

The talk was not akin to a usual discussion instead it was more of exploration to find the hidden 'diamond' which is inside all of us; but we try to find it outside in the world.

According to his experience, youth has the power to change the world with their efforts. So, he started his journey round the country to gather knowledge from every expert and to give it to the youngsters free of cost.

Mr. Lakshmanan focused on choosing a job in which we have an interest rather than selecting due to some other reason. He also gave a new definition to the 'Million Dollar Career': it is not earning a million dollars but to choose that profession which allows us to get all the things that we dream of. Then he performed one exercise with all the participants in which he asked seven questions related to our interests, dreams, what changes we want to make in the world, our positive points and finally on the basis of the first six answers we had to choose our profession. This exercise helped many to finally choose the correct profession for them as well as their key interest-areas. At last, he wrapped up the seminar by recording a selfie video for Siachen Glacier army base camp.
