

VISIT to NGOS- A Managerial Standpoint of CKSVIM Learners

SMJV's CK SHAH VIJAPURWALA INSTITUTE OF MANAGEMENT, Vadodara (MBA and BBA College) scheduled a visit of MBA second year students to NGOs on November 27, 2021. Seva-Tirth and Deepak Medical Foundation were the two NGOs that students visited at the same time. The students handed roughly 300 food packages, and enjoyed a short Seva-Tirth video clip that showcased all of the highlights of the social work. Following that, the students went to Deepak Medical Foundation, wherein they learned about NGO operations in various areas, resource mobilization, issues faced by NGOs, and how NGOs address these challenges. For the future managers, it was a fantastic learning opportunity in a new dimension. Furthermore, the foundation has multiple departments that engage in rural development for education, malnutrition, extra-curricular activities, and even women's empowerment through offering jobs via various handcrafted objects, masks, and other items. As per Dr. Kerav Pandya, Director, CKSVIM, "Ultimately, Management students of CKSVIM have learnt and grabbed the practical exposure of actual conduction of social activities and also acquired the knowledge of management practices in Non-profit Organizations,".
